

Port Covington Chapter 1B Infrastructure

Subcontractor Request for Proposal (RFP)

RFP – WT2019-001SEC

RFP Approximate Amount: <\$1,100,000.00

The Whiting-Turner Contracting Company is requesting proposals for the installation, maintenance, and removal of sediment and erosion controls. The proposal will include the following:

1. Silt fence, super silt fence, and silt fence on pavement
2. Tree protection
3. Temporary stabilization
4. Gabion inlet protection
5. Curb inlet protection
6. Construction entrances
7. Unit prices including labor rates, replacement of controls, added/deducted silt fence, etc.

The pricing of this scope will include all associated items to provide a complete sediment and erosion control package from initial lay-out to final removal and disposal.

Contact Information - infopc@whiting-turner.com

For an invitation and instructions, send a request to the email address above. Whiting-Turner will provide information for the on-line bidding platform, Building Connected*, and access to documents.

Please use the following as your Subject: Interest to Bid RFP-WT2019-XXXXX from above

Specialty Notifications

The project is under a Non-Disclosure Agreement (NDA). All subcontractors are required to fill out the NDA documentation prior to receiving any documents.

*Building Connected is an electronic bid submission and review software that enables the construction team live feedback and better tracking mechanisms to ensure a fair and organized bid process. This is free to bidders. For more information on this software and the submission process, please visit their website, www.buildingconnected.com
